INTRODUCTION

A statewide Hospital Discharge Data System is one of the most important tools for addressing a broad range of health policy issues. Act 670 of 1995, A.C.A. 20-7-301 et seq. requires all hospitals licensed by the state of Arkansas to report information on inpatient discharges.

In order to simplify the reporting process, the Arkansas Hospital Discharge Data System is based on the HCFA UB-04. Two-thirds of the states in the nation already have hospital discharge data systems; at least two-thirds of those are based on the HCFA UB-04 claim.

In accordance, the Arkansas Department of Health is required to collect, analyze and disseminate selected health care data. This Guide defines the data that hospitals will submit for the specific purpose of constructing the Hospital Discharge Data System.

The Center for Health Statistics can provide technical consultation and assistance. Initially, such consultation or assistance must necessarily be limited to activities that specifically enable the hospital to submit data that will meet the requirements. For further information, contact Lynda Lehing, Manager of Hospital Discharge Data System (HDDS).

DATA REPORTING SOURCE

All facilities operating and licensed as a hospital in the state of Arkansas by the Arkansas Department of Health, Division of Health Facility Services, will report discharge data to the Arkansas Department of Health for each patient admitted as an inpatient or with at least one full day of stay (overnight). Discharge data means the consolidation of complete billing, medical, and personal information describing a patient, the services received, and charges billed for a single inpatient hospital stay. The consolidation of discharge data is a discharge data record. The formats are defined later in this Guide.

For a patient with multiple discharges, submit one discharge data record for each discharge. For a patient with multiple billing claims, consolidate the multiple billings into one discharge data record for submission after the patient's discharge. A discharge data record is submitted for each discharge, not for each bill generated. The discharge data record should be submitted for the reporting period within which the discharge occurs. If a claim will not be submitted to a provider or carrier for collection (e.g., charitable service), a hospital discharge data record should still be submitted to the Department of Health, with the normal and customary charges, as if the claim was being submitted. All acute and intensive care discharges or deaths, including newborn discharges or deaths, should be reported.

A hospital may submit discharge data directly to the Arkansas Department of Health, or may designate an intermediary, such as a commercial data clearinghouse. Use of an intermediary does not relieve the hospital from its reporting responsibility.

In order to facilitate communication and problem solving, each hospital should designate a person as contact. Please provide the office name, telephone number, job title and name of the person assigned this responsibility.

CONFIDENTIALITY OF DATA

Act 670 of 1995, A.C.A. 20-7-301 et seq. provides for the strictest confidentiality of data and severe penalties for the violation of the Act. Any information collected from hospitals which identifies a patient, provider, institution, or health plan cannot be released without promulgation of rules and regulations by the Arkansas State Board of Health in accordance with Act 670 Section (2)(g) and (h). The Arkansas Department of Health, will only release data, except as allowed by law that has sufficiently masked these identities.

Since the Department of Health needs patient specific information to complete our analyses, we will take every prudent action to ensure the confidentiality and security of the data submitted to us. Procedures include, but are not limited to, physical security and monitoring, access to the files by authorized personnel only, passwords and encryption. Not all measures taken are documented or mentioned in this Guide to further protect our data.

SUBMITTAL SCHEDULE

Discharge data records will be submitted to the Department of Health as specified below. The data to be submitted is based on the discharges occurring in a calendar quarter. If a patient has a bill generated during a quarter but has not yet been discharged by the end of the quarter, data for that stay should not be included in the quarter's data. Deadlines for data submission are 40 days after the end of the quarter for the first through third quarters and 60 days for the fourth quarter.

While most hospitals will be submitting data directly to the Department of Health, some are utilizing third-party intermediaries. When using an intermediary, the

reporting deadlines are still to be met. See the section on use of INTERMEDIARIES for further details.

REPORTING SCHEDULE

<u>PERSON'S DATE OF DISCHARGE IS</u>	<u>DISCHARGE DATA MUST BE RECEIVED BY</u>
January 1 through March 31	May 10
April 1 through June 30	August 10
July 1 through September 30	November 10
October 1 through December 31	March 1

REQUEST FOR EXTENSION

All hospitals will submit discharge data in a form consistent with the requirements unless an extension has been granted. Request for extension should be in writing or E-mail and be directed to:

Arkansas Department of Health
Center for Health Statistics, Slot #H19
Hospital Discharge Data Section
4815 West Markham Street
Little Rock, AR 72205
Phone (501) 661-2231
FAX (501) 661-2544
E-mail: Lynda.Lehing@arkansas.gov

The Center for Health Statistics will review requests submitted to them for extensions to the reporting schedule requirement. A request for an extension should be submitted at least 10 working days prior to the reporting deadline. Extensions may be granted for a maximum of 20 calendar days. Additional 20-day extensions must be requested separately. Extensions may be granted when the hospital documents that unforeseen difficulties, such as technical problems, prevent compliance.

DATA ERRORS AND CERTIFICATION

Hospitals will review the discharge data records prior to submission for accuracy and completeness. Correction of invalid records and validation of aggregate tabulation are the responsibility of the hospital. All hospitals will certify the data submitted for each quarter in the manner specified.

ERROR CORRECTION

Edits that indicate a high probability of error will be highlighted for review, comment, and correction when applicable. The invalid record will be printed in a simplified format providing record identification, an indication or explanation of the error, and space to record corrections. The error report will be sent by fax or E-mail to the attention of the individual designated to receive the correspondence at the hospital. The corrections made by the hospital are to be returned within seven days of receipt to the Center for Health Statistics.

In the event one (1) percent or more of the records for a quarter are indicated as having a high probability of error, the entire submittal may be rejected. A record is in error when one or more required data elements are in error.

Notification of the rejection will accompany the error report and will be sent by fax or e-mail to the attention of the individual designated to receive the correspondence at the hospital. After correction, the submittal is to be returned within seven days of receipt, to the Center for Health Statistics. In some situations, Hospital Discharge Data System staff will make corrections to the hospital's submissions, based on information obtained from hospital staff and/or

internal health department databases. When this is done, notice will be given to the hospital.

DATA SUBMITTAL SPECIFICATIONS

Currently, data must be submitted via encrypted E-mail, CD's or FTP. Alternate modes of transmission may be established by agreement with the Center for Health Statistics. Data submittals not in compliance with media or format specifications will be rejected unless approval is obtained prior to the scheduled due date from the Center for Health Statistics. Data submittal on physical media should be mailed to:

Arkansas Department of Health
Center for Health Statistics
Hospital Discharge Data System
4815 West Markham Street, Slot H19
Little Rock, AR 72205

If you are submitting data for more than one hospital on one media submission, the additional specifications found in the section named **MULTI-HOSPITAL SUBMISSION** must be followed.

FILE COMPRESSION

WINZIP is the compression utility of choice by the Hospital Discharge Data Section. If a compression utility other than WINZIP is used, the resulting file must be able to be unzipped by the Hospital Discharge Data Section. Please contact an HDDS colleague prior to sending a file compressed with any compression software other than WINZIP.

FILE ENCRYPTION

Crypt-text is the freeware, encryption software that the HDDS recommends. An HDDS colleague can be contacted on how to receive this software. Encryption of data files sent as email attachments is required. See item a. under E-Mail attachment submissions. All passwords used with encryption software will be supplied by the HDDS. Please contact an HDDS colleague for the correct password for your hospital.

FILE TRANSFER PROTOCOL

The following specifications must be met when submitting data using the FTP.

The secured web site is at: <https://dhhs.arkansas.gov/wa/DHHSSecureUpload/>

1. File names must be created in the:
HHHYYQNVN.dat, where
HHHH = four letters for the hospital
YY = two numbers for the year
QN = quarter Number
VN = shipment Number

HDDS07Q1V1.dat will tell us Hospital Discharge Data Systems uploaded quarter 1 of 2007 one time. If you do not know the four letter code for the hospital (HHHH), please contact an HDDS colleague for that information.

2. Files are to be encrypted by using crypttext.
3. Upload by accessing the secured web site and inputting your user name and password that you created. If you or your organization has not created one, then please create one.

How to create an account on the FTP server:

1. Access the website of : https://dhhs.arkansas.gov/wa_DHHSsecureUpload/
2. Click on request access
3. Fill out the form completely and check all the field types to upload.
4. Wait for the e-mail for confirmation, which takes about 48 hours.

E-MAIL ATTACHMENT SUBMISSIONS

The following specifications must be met when submitting data by e-mail attachment via the Internet:

- a. Hospitals must use encryption software and passwords provided by the Center for Health Statistics. To receive encryption software and/or passwords, please contact Lynda Lehing, (501) 661-2231, or by E-mail, Lynda.Lehing@arkansas.gov

Contact Person _____ Phone: _____

Extension: _____

ENCRYPTED

- d. Use the following 'filename.extension' file naming standard:
 1. The first two positions of the filename will be the last two digits of the calendar year;
 2. The next three characters will be 'QTR';
 3. The last position must be the quarter from one through four that indicates the quarter of the calendar year of the data submitted;
 4. The extension will be 'TXT' or 'DAT' for a PC Text file or 'ZIP' for a file compressed with WINZIP or 'EXE' for a self-extracting file

Example: 08QTR1.TXT - ASCII data file for the first quarter of 2008

SUBJECT TO CHANGE

Data submission methods are always under review. If implemented, all Arkansas hospitals will receive notice of the changes to be implemented.

MULTI - HOSPITAL SUBMISSION

Data from more than one hospital may be submitted on one media submission as one file per hospital. Change the following items on your external label or accompanying information sheet:

- X If you are not a hospital, replace 'Hospital:' with your company name.
- X If you are a hospital or subsidiary of a hospital, replace 'Hospital:' with 'Agent:' and your hospital name.
- X If multiple files are on the submission, replace 'Total Record Count:' with 'Number of Files:'
- X The contact person and phone number should be that of the agent or company, not the hospital.
- X If multiple files are placed on diskette, the 'filename.extension' file-naming standard must change. The last two positions of the filename (follows 'QTR' and quarter number) must be the file number provided.

In addition to the above changes, a list of hospitals on the medium must be provided, with tax id, number of records, and hospital contact.

INTERMEDIARIES

Third-party intermediaries may be utilized by hospitals for the delivery of data to the Department of Health. To better manage data collection, intermediaries must be registered with the Department of Health. Additions and deletions to the intermediary's list of hospitals represented must be submitted at least 10 days prior to the Department of Health reporting due date. The intermediary must specify hospitals being represented, media, formats, contacts, and length of contractual obligation.

EDITING INTERMEDIARIES

The following additional requirements and information apply to intermediaries delivering edited data to the Department of Health:

1. The data must not have an error rate greater than 1 percent.
2. Each hospital's data must be submitted in a separate file.
3. Data may be submitted on any approved media - declared at the time of registration.
4. Data may be submitted in any approved data format - declared at the time of registration.

PASS - THRU INTERMEDIARIES

The following additional requirements and information apply to intermediaries delivering unedited data to the Department of Health:

1. The data must not have an error rate greater than 1 percent.
2. Each hospital's data must be submitted in a separate file.

DATA RECORD FORMATS

The accepted data record formats are the UB-04 1450 version 6 formats. This format has altered slightly. The definition specified for each data element is in general agreement with the definition in the UB-04 Users Manual. Hospitals using data sources other than uniform billing should evaluate definitions for agreement with the definitions specified in this Guide and UB-04 Users Manual. See the EXCEPTIONS section to identify possible changes to your current format. Each record must be followed by a carriage return/line feed sequence.

'UB-04-1450' RECORD SPECIFICATION

The UB-04 1450 claim 'record' is made up of a series of 192-character physical records and the 1450 Y2K claim "record" is made up of a series of 198-character physical records. Not all of the physical claim records are used in the Hospital Discharge Data System, such as the Claim Request Data. Records not specified in the Hospital Discharge Data System will be ignored, if included in the submittal. Fields not referenced in the record formats may contain information but will not be processed by computer programs; this also includes fields reserved for national use. The exact record sequence and format of the 1450 is used for the Hospital Discharge Data System, when possible. A complete copy of the patient's 1450 records would satisfy the requirements, with exceptions noted in EXCEPTIONS TO 1450 FORMAT. The physical records for each claim are divided into logical subsets as follows:

- Subset 1 - Patient Data - Record Codes 20-29
- Subset 2 - Third Party Data - Record Codes 30-39
- Subset 3 - Claim Request Data - Record Codes 40-49
- Subset 4 - Inpatient Accommodations Data - Record Codes 50-59
- Subset 5 - Ancillary Services Data - Record Codes 60-69
- Subset 6 - Medical Data - Record Codes 70-79
- Subset 7 - Physician Data - Record Codes 80-89

The record layouts that follow will provide the following information:

1. Record Name: The name of the data record.
2. Record Type: Code indicating the type of record.
3. Record Size: Physical length of record is a constant 192 for the 1450 and constant 198 for the 1450 Y2K.
4. Required Field Annotation: An asterisk '*' denotes the field is required and must contain data if applicable.
5. Field Number: Field number as specified on the UB-04 1450 version 4 file layout. This number is not the Form Locator number found on the UB-04

- 1450 form.
6. Field Name: Name generally used with the UB-04 1450 Form.
 7. Picture: This is the COBOL picture. Pic X is initialized to blanks and Pic 9 is initialized to zeroes. All money and date fields are Pic 9.
 8. Field Specification: Indicates how the data field is justified. L = Left justification, and R = Right justification.
 9. Position: From = Leftmost position in the record (high order).
Thru = Rightmost position in the record (low order).
 10. Form Locator: Number found on the UB-04 Form and associated with the field in that location.

1450-RECORD TYPE 10 - PROVIDER DATA

Only one type '10' record is required per hospital per submittal. Only the first type '10' record and each type '10' record following a type '95' record will be processed, all others will be ignored. This record type will be processed as a header record and a record type '95' will be processed as a trailer record. The records encapsulated between the first type '10' and '95' will be processed using the hospital specified on the type '10' record. It is absolutely imperative that each submission includes at least one type '10' record with correct Federal Tax Number. If the Federal Tax Number is not unique to a facility or cost center, the Federal Tax Sub ID **must** be included.

Date changes made by some hospitals for the year 2000 and following require spacing changes in the type 20 and type 70 records for the 1450 record format. For hospitals using the 1450 record format that began using an eight-digit date format in 2000, the date must be given as CCYYMMDD. In this case, February 7, 2001 is entered 20010207. Where this change is made, all dates (birthdate, admission date, statement from data and statement through date) must use this format. The following position changes in the type 20 record are required:

NOTE: 'Statement Covers Period From' should be the date of the first medical service related to the hospital stay.
'Statement Covers Period Thru' should be the discharge date.
'Payments Received' and 'Estimated Amt Due' should reflect a single discharge if multiple claims have been submitted.

1450-RECORD TYPES 30-31 - THIRD PARTY PAYER

The use of these record types for the Hospital Discharge Data System (HDDS) is the same as the UB-04 claim. When reporting for HDDS, records may need to be consolidated and amounts accumulated by payer. Below are specifications and an example as taken from UB-04.

One third party payer record packet (record types 30-3N) must appear in the bill record for each payer involved in the bill. Each third party payer packet must contain a record type 30. However, each record type 30 may or may not have an associated record type 31, depending on the specific third party payer data required by the particular payer.

Example: Medicare is primary, and the secondary payer requires the insured's address.

	Record Type Code	Sequence Number
Medicare	30	01
Secondary Payer	30	02
Secondary Payer	31	02

Because the sequence number of the type 31 record for the secondary payer matches the sequence number of the secondary payer's type 30 record, it serves as a matching criterion for the specific third party payer record packet.

Sequence 01 represents the primary payer, sequence 02 represents the secondary payer, and sequence 03 represents the tertiary payer.

FOR BOTH 1450 AND 1450 Y2K

ICD-9-CM is required for diagnosis coding. **Do not report the decimal in the code.** The ICD-9-CM diagnosis codes are assigned a COBOL picture of X. Format the actual code in one of four general ways, as follows:

- If you report 99999, it translates to 999.99.
- If you report V9999, it translates to V99.99.
- If you report E9999, it translates to E999.9.
- If you report M99999, it translates to M9999/9.

To determine the location of the decimal position and the potential number of decimal positions it is necessary only to examine the high order (left most) position of the field.

Physician Number Qualifying Codes:

UP = Universal Physician Identification Number (UPIN)- Alpha and 5 digits
 FI = Federal Taxpayer's Identification Number
 SL = State License Number - Alpha and 4 digits
 SP = Specialty License Number
 NI = National Provider Identifier (NPI) - 10 digit number

1450-RECORD TYPE 95 - PROVIDER BATCH CONTROL

Only one type '95' is allowed per hospital per submittal. The Federal Tax Number must match the type '10' record. This record type will be processed as a trailer record and a record type '10' will be processed as a header record. The records encapsulated between the first type '10' and '95' will be processed using the hospital specified on the type '10' record.

FIELD NO.	NAME	PICTURE	SPECIFI- CATION	POSITION FROM	THRU	FORM LOCATOR
* 1	Record Type '95'	XX	L	1	2	
	Federal Tax Number

	Federal Tax Sub ID	X(4)	L	13	16	FL05
* 6	Number of Claims	9(6)	R	25	30	

*An asterisk denotes the field is required and must contain data if applicable.

Note: Federal Tax Sub ID **must** be the same as specified on the type '10' record. 'Number of Claims' should be the number of discharges in the batch (number of type '20' records).

EXCEPTIONS TO 1450 FORMAT

In general, the submittal is identical to the current UB-04 1450 version 6 format used. The differences are minor but nevertheless important. The most notable difference is the requirement for one discharge record for one patient, as opposed to the possibility of multiple claim records for one patient. For discharges with multiple claim records, they should be consolidated into a single discharge, accumulating amounts where necessary (e.g., amounts by Payer).

Only one type '10' is required per hospital per submittal. Only the first type '10' record and each type '10' record following a type '95' record will be processed, all others will be ignored. A record type '10' will be processed as a header record and a record type '95' will be processed as a trailer record. The records encapsulated between the first type '10' and '95' will be processed using the hospital specified on the type '10' record.

In record type '20', 'Statement Covers Period Thru' should be the discharge date.

In record type '95', Federal Tax Sub ID is a new field and must be the same as specified on the type '10' record.

'Number of Claims' in record type '95' should be the number of discharges reported in the batch, after the batch equal to the number of type '20' records.

Record type '27' is not a record type used in the UB-04 claim. It contains data that may come from other record types, such as 'Type of Bill,' or may be computable, such as 'Total Charges,' or should be found in your current databases, 'Patient Social Security Number,' for example.

USE OF MULTI-PAGE CLAIMS

All data except revenue code and charge fields should be duplicated on successive records. All available revenue and charge fields should be completely filled before using additional records. The '0001' revenue code should be the last entry on the last record for a multi-page claim and its charge should be equal to the total charge for all pages.

APPENDIX I

DATA DICTIONARY

DATA DICTIONARY

The definition specified for each data element is in general agreement with the definition in the UB-04 Users Manual. Hospitals using existing UB-04 record formats should reference the sections, EXCEPTIONS TO 1450 FORMAT for differences from the established UB-04 record formats. Hospitals using data sources other than uniform billing should evaluate their definitions for agreement with the definitions specified in this Guide and the UB-04 Users Manual.

The dictionary format that follows will provide the following information:

1. Data Element: The name of the data element
2. Char Type: Character type for the data element
N = numeric
A = alphanumeric
3. Char Length: Character length of data element. For fields with an implied decimal point, the first number is the total length, the second number is the length after the implied decimal point (e.g., '9, 2' represents the COBOL picture clause 9(7)V99).
4. Data Reporting Level: Reporting requirement for the data element
Required = must be reported
As available = must be present, if captured in your database
5. Definition: A definition of the data element
6. General Comments: These comments help to further define or explain the data Comments: elements and give permissible values for code and type data elements
7. Edit: Minimal edits that will be performed on the data element; these edits should be performed by the hospital prior to submission.

Accommodations Days N 4
(Located in Record type 50 position 38-41 for accommodation 1)

Data Reporting Level: **Required**

Definition: A numeric count of accommodations days in accordance with payer instructions. Includes UB-04 revenue codes 10X through 21X.

General Comments: This field should be a numeric value greater than zero.

Edit: The total number of days between admission date and discharge date must be within +/- 2 days of Accommodations Days.

Accommodations Rate N 9, 2
(Located in Record type 50 position 29-37 for accommodation 1)

Data Reporting Level: **Required**

Definition: Per-diem rate for related UB-04 accommodations revenue codes.

General Comments: The rate should be right justified with leading zeroes. There is an implied decimal place 2 positions from the right.

Edit: If present, rate must be greater than zero.

Admission Date N 6 or 8 1450
(Located in Record type 20 position 120-128)

Data Reporting Level: **Required**

Definition: The date the patient was admitted to the hospital.

General Comments: The admission date is to be entered as month, day, and year. The format is MMDDYY for 1450 record. The month is recorded as two digits ranging from 01-12. The day is recorded as two digits ranging from 01-31. The year is recorded as two digits ranging from 00 -99. Each of the three components (month, day, year) must be right justified within its two digits. Any unused space to the left must be

zero filled. For example February 7, 1992 is entered as 020792 (1450).

For hospitals using the 1450 record format that began using a different date format in 2000, the date must be given as CCYYMMDD. In this case, February 7, 2001 is entered 20010207. Where this change is made, all dates must use this format.

18 SECTION 1. This act shall be entitled the "State Health Data Clearing
19 House Act."

20
21 SECTION 2. Collection and dissemination of health data.

22 (a) The General Assembly finds that as a result of rising health care
23 costs, the shortage of health professionals and health care services in many
24 areas of the state, and the concerns expressed by care providers, consumers,
25 third-party payers, and others involved with planning for the provision of
26 health care, there is an urgent need to understand patterns and trends in the
27 availability, use, and costs of these services. Therefore, in order to

29 hospitals, to improve the appropriate and efficient usage of health care
30 services, and to provide for appropriate protection for confidentiality and
31 privacy, the Department of Health shall act as a state health data clearing
32 house for the acquisition and dissemination of data from state agencies and
33 other appropriate sources to carry out the purposes of this section.

9 (c) In order to maximize limited resources and prevent duplication of
10 effort, the Department of Health may, when appropriate, consider contracting
11 with private entities for the collection of data set forth in this section
12 subject to the provisions of this act.

13 (d) All state agencies, including health profession licensing,
14 certification or registration boards and commissions, which collect, maintain
15 or distribute health data, including data relating to the Medicaid program,
16 shall make available to the Department of Health such data as are necessary
17 for the Department of Health to carry out its responsibilities as prescribed
18 by this section or such rules and regulations as may be adopted as provided in
19 subsection (h).

20 (e) *If health data are already reported to another organization or*
21 *governmental agency in the same manner, form, and content or in a manner,*
22 *form, and content acceptable to the Department, the Director may obtain a copy*

25 (f) All hospitals and outpatient surgery centers licensed by the state
26 shall submit information in a form and manner as prescribed by rules and
27 regulations by the Arkansas State Board of Health pursuant to subsection (h);
28 however, if the same information is being collected by another state agency,
29 the Department of Health shall obtain such data from the other state agency.

30 (g) The Director of the Department of Health shall be empowered to
31 release data collected pursuant to this section except that data released

34 as provided in subsection (h).
