ALCOHOL & DRUG PREVENTION	X	<p>MCHC youth gave a presentation at our monthly MCHC meeting about what they learned from the “Lead and Seed” training they attended in June. They will be working on underage drinking prevention.</p> <p>MCHC hosted a “Community Café” (town hall meeting) to raise awareness of the problem Madison County youth have with underage drinking and prescription drug use in May and followed up with another meeting during their monthly MCHC meeting in June. APNA data was shared with key stakeholders who then broke into groups to brainstorm ideas to implement prevention activities that address underage drinking prevention and prescription drug abuse prevention.</p>
BREAST CARE		
BREASTFEEDING	X	RN takes pictures of breastfeeding moms and babies and displays their pictures on a bulletin board. This is an ongoing BF promotion.

DIABETES	X	LHU Administrator is case managing a local doctor’s uncontrolled diabetic

		<p>clients. This is part of the HTN pilot program with Dr. Bala, ADH. (see heart disease/stroke)</p> <p>The AR Minority Health Commission contacted one of our coalition’s community action projects, Camp Harvest, and asked them to host a camp for teenage Marshallese girls. They had 29 girls attend the week long camp where they received education on nutrition and physical activity to raise awareness and hopefully decrease diabetes in this population. They were educated on tobacco and alcohol prevention. Our CHPS, Ashley LeFevre, was the speaker for two days at the camp and educated them on nutrition and physical activity. Kelli Butcher, CHNS spoke to the girls on Saturday about positive life choices. The camp focused on empowerment and positive living.</p>

OBESITY		
ORAL HEALTH		
PHYSICAL ACTIVITY	X	<p>See info about Marshallese Camp under diabetes.</p> <p>MCHC is partnering with Economic Development to try to get permission to start more development of our land. The land was purchased about 8 years ago in hopes of getting an activities complex built. We have not been able to secure funding for the complex, but we have developed part of the land. This land is what was used for our lighted walking trail and soccer fields. We have funding commitments for a bike and hiking trail and for a baseball field. One hundred community members attended the quorum court meeting to show support of the county allowing development to start. Our local newspaper had an online poll of the county last week. We currently still do not have permission to start the development, because there are issues with who will maintain the property so MCHC will continue to educate and work with city and county in hopes of finding a solution so development can start.</p> <p>MCHC partnered with the city and a “disc” golf course was opened at our local park. Disc Golf is a flying disc game, as well as a precision and accuracy sport, in which individual players throw a flying disc at a target. The course allows for physical activity for participants.</p>
STD/AIDS/HIV		
TEEN PREGNANCY		

TOBACCO/SMOKING CESSATION	X	Madison County Health Coalition (MCHC) educated city council about the importance and benefits of decreasing tobacco and alcohol signage in the city of Huntsville. They were educated about how this signage is strategically placed so that it targets smaller children and the youth. MCHC will return June 13 th to learn if city council decided to work to decrease the signage in Madison County. Update: MCHC returned to city council in June, but they refused to pass an ordinance. The Mayor was concerned that the city could be sued due to freedom of speech. We will continue to educate. See info about Marshallese Camp under diabetes.
