

SE Region HHI Report—October 2015

Bradley:

The Coalition partnered with the library in Warren to make 2 raised bed gardens. They will partner with the school and after school program to teach kids how to plant, raise and harvest the crops. Education will be done throughout the process. The coalition is also going to be partnering with New Beginnings to have a community garden. They have 2 Acres of land that they will work together to get planted and harvested for the community. Sandy Doss presented pictures at the coalition meeting of the kids participating in the planing of the gardens.

The HHI coalition had an education booth at the local fair. Hypertension and Diabetes was the focus of the booth. They also gave out Bradley county Statistics to participants.

Chicot:

Chicot County held its first Children's Health and Safety Festival at the State park. 180 participants received information on Physical Activity, Nutrition, Oral Health, and all students go through the bicycle and helmet fitting station. Approximately 60 kids received new bicycle helmets. The community donated bicycles for the event so there was a drawing to give those away.

Desha:

New Trends in Tobacco was given 150 staff at McGehee School District for staff development. Participants received information on the dangers of tobacco and the Quit Line. 5 participants utilized the CO monitor with 3 blowing about 25. Quitline cards and information was given to these.

The LHU participated in the Annual McGehee Owl Festival. Injury prevention, tobacco prevention, WIC, Safe sleep, Family Planning and other health unit services was shared with participants at the event.

The LHU Participated in the Annual Clearwater Worksite Wellness Employee Health Fair. 172 were screened for blood glucose levels. Tobacco Prevention with the SOS Quit line information was available along with other education.

The LHU participated in the Annual Ding Dong Daddy Days Festival in Dumas. Injury prevention, tobacco prevention, WIC, Safe sleep, Family Planning and other health unit services was shared with participants at the event.

CHNS/CHPS
