Re: Rapid Sequence Intubation (RSI) Electronic Data Collection

The Section of Emergency Medical Services and Trauma Systems is pleased to announce the availability of online data submission related to the Rapid Sequence Intubation Optional Skill Study. As a participant in this study, please use the following link to electronically submit your data for the study:

http://www.surveymonkey.com/s.aspx?sm=qwf1Lfz9XuynEsbeVklZg_3d_3d

This online feature will replace the blue *RSI Data Collection Form* currently in use. You must continue to submit the paper copy of the four-part sheet *RSI Administration Tracking Form*, required semi-annual reports from ambulance service medical director, and *Verification Form* for newly trained personnel to the Section of EMS and Trauma Systems as required.

This survey takes approximately four minutes to complete. Many of the questions require a response to continue to the next question. Please enter any RSIs performed beginning April 1, 2009 to the present. The Section has collected all data up to March 31, 2009 and has entered it into a database. I appreciate your time and participation in this study. If you have any problems or questions, please contact me at 501-661-2262.
