EMS Instructors
EMS Lay Evaluators

FROM: Norajean Miles Harrell, EMSP Licensure Administrator
Section of EMS

DATE: March 19, 2012

RE: Important Lay Evaluator Updates in April

Thank you for providing the list of your current lay evaluators used by your training site for the EMT psychomotor examination.

As previously communicated, basic psychomotor examination skills, scoring sheets and documentation is changing. All current lay evaluators must complete the update taught by the Section of EMS by May 1, 2012 or they will be unable to participate in the end of course psychomotor examination. Attached find the list of dates, times and places where lay evaluator may complete updates during April. The update takes about 2 hours and has been approved for two (2) hours of Instructor continuing education.

This is NOT the advanced update taught for advanced NREMT examinations but new information needed for scoring the Arkansas EMT (basic level) end of course psychomotor examination. Any evaluator unable to complete the update will need to retake the revised complete lay evaluator course that will be available after May 1.

Please ensure that all current instructors and lay evaluators are aware of the update in your area. Your assistance in getting this information disseminated is appreciated.

If you have questions or need additional information, please do not hesitate to contact me.

Thank you for your dedication to EMS education in Arkansas.

All Lay Evaluators and Instructors should attend.
