

EXHIBIT G
EMERGENCY RESPONSE INFORMATION

POTENTIAL HAZARDS

1. IMMEDIATE HAZARDS TO HEALTH

- External radiation hazard from unshielded radioactive material.
- Potential internal radiation hazard from inhalation, ingestion, or breaks in skin, but only if special form capsule is breached.
- Radioactive material; degree of hazard will vary greatly, depending on type and quantity of radioactive material.
- Materials in special form or in Type B packaging are not expected to cause contamination in accidents.

2. FIRE OR EXPLOSION

- No risk of fire or explosion; radioactivity does not change flammability or other properties of the materials.

EMERGENCY ACTION

3. IMMEDIATE PRECAUTIONS

- Isolate hazard area to at least a 150-foot radius and restrict access; greater distances may be necessary if advised by the qualified Radiation Safety Officer.
- Enter hazard area only to save life; limit entry to shortest possible time.
- Emergency response actions may be performed prior to any measurement of radiation.
- Notify local authorities and Department of accident conditions.
- Detain uninjured persons, isolate equipment with suspected contamination, and delay cleanup until instruction from the Radiation Safety Officer.

4. FIRE

- Do not move damaged containers; move undamaged containers out of fire zone.
- Fight fire from maximum distance.
- Small fire: Dry chemical, CO2, Halon, water spray, or standard foam
- Large fire: Water spray, fog (flooding amounts)

5. SPILL OR LEAK

- Do not touch damaged containers or exposed contents.
- Damage to outer container may not affect primary inner container.
- Special form capsules are not expected to leak because of an accident or fire.

6. FIRST AID

- Use first aid treatment according to the nature of the injury.
- Advise medical personnel that victim may be contaminated with radioactive material.
- If not affecting injury, remove and isolate potentially contaminated clothing and shoes. Wrap victim in blanket before transporting.
- Except for the injured, detain persons exposed to radioactive material until arrival or instruction of the Radiation Safety Officer.

CALL THE FOLLOWING FOR EMERGENCY ASSISTANCE:

**RADIATION SAFETY OFFICER:
RSO PHONE NO.:**

LOCAL AUTHORITIES:	911, police, sheriff, fire department
ARKANSAS DEPARTMENT OF HEALTH	(800) 633-1735
U.S. DEPT. OF TRANSPORTAT.....	(800) 424-8802
AEA TECHNOLOGY QSA.....	(800) 815-1383
INDUSTRIAL NUCLEAR CO.....	(800) 424-9300
SOURCE PRODUCTION AND EQUIPMENT CO.....	(800) 992-4589
