

The purpose of this report is to provide the type of tobacco used, by county, to ensure services are reaching all populations and areas within the state.

NOTE: By county data is dependent on collection of address. Tobacco Users who request an intervention or materials only are reflected in this report. If a participant uses more than one type of tobacco, the county of that participant is reflected under each type of tobacco use, resulting in more than one "count" of that tobacco user.

The purpose of this report is to provide the type of tobacco used, by county, to ensure services are reaching all populations and areas within the state.

NOTE: By county data is dependent on collection of address. Tobacco Users who request an intervention or materials only are reflected in this report. If a participant uses more than one type of tobacco, the county of that participant is reflected under each type of tobacco use, resulting in more than one "count" of that tobacco user.
