The journey of your child’s early years includes many developmental milestones for how he or she plays, learns, speaks, and acts.

Look inside to learn what to look for in your child. Talk with your child’s doctor about these milestones.

Not reaching these milestones, or reaching them much later than other children, could be a sign of a developmental delay.

Learn the Signs. Act Early.

Your child’s early development is a journey. Use this map of milestones to know what to look for along the way.

For parents of children from birth to 4 years

Track Your Child’s Developmental Milestones

YOUR CHILD BEST.

If you are concerned about your child’s development, talk to your child’s doctor.

If you or the doctor is still concerned, ask the doctor for a referral to a specialist and call 1-800-CDC-INFO to learn how to get connected with your state's early childhood system to get the help your child might need.

DON’T WAIT.

Acting early can make a real difference!

For more information about your child’s development and what to do if you have a concern, visit:

www.cdc.gov/ActEarly

OR FOR LOCAL INFORMATION:

ARKANSAS ACTS EARLY!

If your child is under the age of 3, call First Connections at 1 (800) 643-8252.

If your child is age 3-21, go to https://arkspeed.k12.ar.us/sections/circuit.html and complete an online request.

If you need further assistance call University of Arkansas-Project Connect at 1(855) 617-0013. We will assist you in making the connection with their services your child needs.

Developmental milestones adapted from Caring for Your Baby and Young Child: Birth to Age 5 (AAP, 2009) and Bright Futures: Guidelines for Health Supervision of Infants, Children, and Adolescents (AAP, 2008).
Your Child’s Early Development is a Journey

Check off the milestones your child has reached and share your child’s progress with the doctor at every visit.

6 MONTHS

- Copies sounds
- Begins to sit without support
- Likes to play with others, especially parents
- Responds to own name
- Strings vowels together when babbling (“ah,” “eh,” “oh”)
- Uses simple gestures such as shaking head for “no” or waving “bye bye”
- Copies gestures

12 MONTHS (1 YEAR)

- Responds to simple spoken requests
- Talks in two-word sentences
- Pulls up to stand

18 MONTHS (1 1/2 YEARS)

- Says “mama” and “dada”
- Plays simple pretend, such as feeding a doll
- Points to others something interesting

2 YEARS

- Says sentences with 2 to 4 words
- Gets excited when with other children
- Follows simple instructions
- Kicks a ball
- Copies adults and friends (like running when other children run)

3 YEARS

- Carries on a conversation using 2 to 3 sentences
- Climbs well
- Plays make-believe with dolls, animals and people
- Shows affection for friends without prompting
- Hops and stands on one foot for up to 2 seconds

4 YEARS

- Would rather play with other children than alone
- Tells stories
- Draws a person with 2 to 4 body parts
- Plays cooperatively

These are just a few of many important milestones to look for. For more complete checklists by age visit www.cdc.gov/ActEarly or call 1-800-CDC-INFO.
