Due to the size of this report, unfortunately, our Print to PDF feature is not well supported for this report at this time. In order to print this report more effectively, please use the "Export to Excel" feature in the top right hand corner of the report and print from Excel.

**Stroke Insights Data Quality Report**

**Stroke Mortality Report**

Filtering Reports in Quintiles

Select “interval”; dates “to” and “from”; click “aggregate” if needed; and select the measure.
Filtering Reports in Quintiles

Scroll down to the bottom of the report page and click “Show” next to “Filter Options”. It is located just below the hospital list.
Filtering Reports in Quintiles

A list of elements will appear for you to select your patient population of interest, e.g. Ischemic Strokes with a Time from Last Known Well to Arrival within 4.5 hours. If multiple filters are needed, hold-down the CTL key when clicking on the additional filters.
Filtering Reports in Quintiles

To download the information and to be able to compare each selection to each other, be sure to click-on to “compare selections”.
Filtering Reports in Quintiles

Last Step: Click-on generate report.
