

The Arkansas Department of Health

is a centralized health department, operating local health units in each of the state's 75 counties. Our employees work every day to protect and improve the health of Arkansans through central and regional offices and 94 local health units throughout the state. Our Department provides quality clinical, environmental and community services.

ARKANSAS DEPARTMENT OF HEALTH

Mission

To protect and improve the health and well-being of all Arkansans

Vision

Optimal health for all Arkansans to achieve maximum personal, economic and social impact

Arkansas Department of Health
4815 W. Markham St.
Little Rock, AR 72205-3867
(501) 661-2000
www.healthy.arkansas.gov

Providing preventive health services in clinical settings.

Educating and monitoring sites that impact the public's health.

Investigating public health diseases and threats.

Arkansas Department of Health

At the Arkansas Department of Health, we have programs, services and information designed to help you be healthier, safer and live longer.

We are here to provide you and your community with expert health care, proven wellness methods, safe food and water, information about disease outbreaks, women's health services and more.

Contact your local county health unit to access services, including:

Clinic Services

- Breast and Cervical Cancer (BreastCare)
- Breast and Cervical Cancer Prevention and Control (BreastCare)
- Immunizations (flu vaccine, tetanus, whooping cough, measles and others)
- Infectious Disease Prevention and Control (TB, STD/HIV)
- Women's Health (family planning, maternity)
- WIC

Environmental Services

- Food and Milk
- On-site Wastewater
- Pool and Swim Beach Safety
- Tattoo, Body Art and Permanent Cosmetics
- Engineering (public water systems, safe drinking water)
- Heating, ventilation, air conditioning and refrigeration (HVAC/R)
- Plumbing

Community Services

- Hometown Health Improvement Coalitions
- Mass Flu Clinics
- Emergency Preparedness

Programs and services within the Department include:

Disease and Prevention Services

We provide information and screenings for cancer, infectious diseases, injury prevention and more.

Birth and Death Certificates

Vital Records is your source for birth, death, marriage and divorce records.

Environmental

We conduct inspections and issue permits and certifications for everything from food service establishments to drinking water and septic systems.

Parents and Kids

Our women's health services provide information from breastfeeding and maternity care to WIC.

Preparedness and Planning

We can help you prepare for potential public health emergencies such as natural disasters, bioterrorism and outbreaks of infectious disease.

Laboratory Services

Our state-of-the-art public health lab conducts clinical, biological and alcohol testing.

Hometown Health Improvement

Through our Hometown Health Improvement initiatives, resources and information are provided to keep your home town healthy.

Permits, Occupational Licenses & Certifications

We help with everything you need to know about where and how to get permits, licenses and certifications – from cosmetology to plumbing.

Data and Research

We are the source for information and statistics from West Nile Virus and Zika to cancer, heart disease and stroke.
