

FY 2020
Third Quarter Report
January – March 2020

Arkansas Department of Health

BreastCare Quarterly Report

January - March, Fiscal Year 2020

Funded by the Arkansas Department of Health (ADH) with support from the Centers for Disease Control and Prevention (CDC) and Arkansas Tobacco Excise Tax.

Table 1: Number of Women Enrolled¹, FY 2020

Funding Source	Number of Women Enrolled January-March, FY 2020	Number of Women Enrolled To-Date, FY 2020
Total	2,760	8,666
Federal	1,793	5,562
State	967	3,104

Data source: FY 2020 BreastCare Online System Data.

¹Unduplicated count of women enrolled in the BreastCare Program during the period.

Table 2: BreastCare Funds by Expenditures and Percent Spent on Clinical Services, FY 2020

Month	January	February	March	January- March Average	Monthly Average To-Date FY 2020
Total Expenditures	\$424,252	\$351,855	\$414,647	\$396,917	\$376,474
Expenditures on Clinical Services	\$300,422	\$268,304	\$305,419	\$291,381	\$277,872
Percent of Expenditures Spent on Clinical Services	70.8%	76.3%	73.7%	73.4%	73.8%

Data Source: Monthly BreastCare Financial Status Report

Table 3: Number and Percent of Screenings Performed, FY 2020

Provider Type	Number of Screenings ¹ , Jan-Mar, FY 2020	Number of Screenings ¹ , To-Date, FY 2020	Percent of Screenings, FY 2020
Health Department Clinic	2,100	6,599	61.1%
Community Health Center	517	1,475	13.7%
Hospital	722	2,339	21.7%
Private Provider	141	379	3.5%
Total¹	3,480	10,792	100.0%

Data source: FY 2020 BreastCare Online System Data.

¹Unique screening tests performed during the period. Screening tests include clinical breast exams, screening mammograms, and Pap tests.

Table 4: Number of Screening Tests Performed through BreastCare, FY 2020

Type of Test	Number of Tests Performed Jan-Mar, FY 2020	Number of Tests Performed To-Date, FY 2020
Clinical Breast Exam ¹	1,180	3,604
Mammograms ²	794	2,555
Pap Tests ³	1,506	4,633

Data source: FY 2020 BreastCare Online System Data.

¹Number of clinical breast exam performed during the period, clients may receive more than one clinical breast exam.

²Number of screening mammograms performed during the period, clients may receive more than one screening mammogram.

³Number of Pap tests performed during the period, clients may receive more than one Pap test.

Table 5: Mammogram Screening History at Enrollment, Women 40 – 64 years old, FY 2020

Last Mammogram	Percent of Enrollees Jan-Mar, FY 2020	Percent of Enrollees To-Date, FY 2020
Within 2 Years	50.8%	52.0%
More than 2 Years	24.9%	24.6%
Never Had Mammogram	24.2%	23.4%

Table 6: Number of Cancer and Precancer Diagnoses Reported among BreastCare Women, FY 2020

Type of Diagnosis	Number of Diagnoses Jan-Mar, FY 2020		Number of Diagnoses To-Date FY 2020	
	Total	(Age < 40)	Total	(Age < 40)
Breast Cancer¹	18	(4)	38	(5)
Cervical Cancer²	3	(3)	4	(3)
Cervical Precancer³	21	(7)	56	(16)
Hyperplasia⁴	3	(0)	15	(1)
Atypical Hyperplasia⁵	2	(0)	4	(0)

Data source: FY 2020 BreastCare Online System (BOS) Data

¹Unduplicated count of women with a final diagnosis of invasive or in situ breast cancer reported in BOS during the period.

²Unduplicated count of women with a final diagnosis of invasive cervical cancer reported in BOS during the period.

³Unduplicated count of women with a final diagnosis of moderate or severe dysplasia (CIN-2/CIN-3) reported in BOS during this period.

⁴Unduplicated count of women with a biopsy diagnosis of hyperplasia reported in BOS during the period.

⁵Unduplicated count of women with a biopsy diagnosis of atypical hyperplasia reported in BOS during the period.

Table 7: BreastCare Funds by Funding Source (Revenue and Expenditures) and Percent Spent on Clinical Services, FY 2017-2020

Funding Source	FY 2017	FY 2018	FY 2019	FY 2020 (Budgeted)
Federal				
Revenue	\$2,106,528	\$1,800,000	\$1,800,000	\$1,700,000
Expenditures	\$1,746,355	\$1,420,078	\$1,507,767	\$1,700,000
State				
Revenue	\$3,239,326	\$3,668,135	\$3,130,840	\$3,202,990
Expenditures	\$2,295,522	\$1,998,439	\$2,412,493	\$3,202,990
Percent of Expenditures Spent on Clinical Services	55%	71%	79%	70%

Data Source: BreastCare Monthly Budget Report

Table 8: BreastCare Clinical Services¹ Expenditures by Funding Source, FY 2017-2020

Funding Source	FY 2017	FY 2018	FY 2019	FY 2020 (Budgeted)
Federal Grant	\$1,281,287	\$1,080,037	\$1,192,532	\$1,313,551
State Tobacco Excise Tax	\$924,023	\$1,360,409	\$1,736,057	\$2,540,386
Total	\$2,205,310	\$2,440,446	\$2,928,589	\$3,853,937
Total Number of Women Served	7,777	7,980	9,636	10,786
Average Cost of Each Woman Served	\$283.57	\$305.82	\$303.92	\$357.31

Data source: BreastCare Budget

¹Clinical Services - Direct service provided to women who enroll in the program. These services consist of screening, diagnostic and case management services as well as salaries for Nurse Practitioners and Public Health Nurses who provide one-on-one services.

² To be determined due to changes in federal definitions for clinical services and women served.

Table 9: Clinical Services Provided by BreastCare Funding Sources, FY 2019

Funding Source	Number of Women Enrolled ¹ (% of total)	Number of Women Served ^{2,4} (% of total)	Number of Women Screened ^{3,4} (% of total)
Federal	7,620 (66.6%)	6,029 (62.6%)	5,803 (62.8%)
State	3,822 (33.4%)	3,607 (37.4%)	3,443 (37.2%)
Total	11,442 (100%)	9,636 (100%)	9,246 (100%)

Data Source: FY 2019 BreastCare Online System Data

¹Unduplicated count of women enrolled into BreastCare during the period.

²Unduplicated count of women receiving any clinical service through BreastCare during the period. Clinical services are related to breast and cervical cancers including screening and diagnostic procedures.

³Unduplicated count of women who received any screening procedure through BreastCare during the period. Screening procedures include clinical breast exams, mammograms and Pap tests. The total may not match the total in the BreastCare Online System.

⁴Numbers may change based on billing cycles and delays.

Definitions Used in This Report:

Updated: October, 2019

1. Women enrolled: Unduplicated count of women enrolled into the ADH BreastCare Program during a specified time period; *Source of report: BreastCare Online System.*
2. Women served: Unduplicated count of women receiving any clinical service through BreastCare Program during a specified time period. Clinical services include screening and diagnostic procedures; *Source of report: BreastCare Online System.*
3. Women screened: Unduplicated count of women receiving any screening procedure through BreastCare Program during a specified time period. Screening procedures include clinical breast exam, screening mammogram, and Pap test; *Source of report: BreastCare Online System.*
4. Screenings by provider type: Unduplicated count of screening procedure through BreastCare Program during a specified time period. Screening procedures include clinical breast exam, conventional mammogram, digital mammogram, conventional Pap test, and liquid-based Pap test; *Source of report: BreastCare Online System.*
5. Clinical Breast Exams performed: Number of clinical breast exams provided by BreastCare Program, sometimes more than one for the same client, during a specific time period; *Source of Report: BreastCare Online System.*
6. Mammograms performed: Number of screening mammograms provided by BreastCare Program, sometimes more than one for the same client, during a specified time period; *Source of Report: BreastCare Online System.*
7. Pap tests performed: Total number of Pap tests provided by BreastCare Program, sometimes more than one for the same client, during a specified time period; *Source of Report: BreastCare Online System.*
8. Breast cancer diagnosis: Unduplicated count of women with a final diagnosis of invasive or in situ breast cancer reported to the BreastCare program during a specific time period. The diagnosis may be prior to the quarter it is reported in; *Source of Report: BreastCare Online System.*
9. Cervical cancer diagnosis: Unduplicated count of women with a final diagnosis of invasive cervical cancer reported to the BreastCare program during a specific time period. The diagnosis may be prior to the quarter it is reported in; *Source of Report: BreastCare Online System.*
10. Cervical precancer diagnosis: Unduplicated count of women with a final diagnosis of moderate or severe dysplasia (CIN-2 or CIN-3) reported to the BreastCare program during a specific time period. The diagnosis may be prior to the quarter it is reported in; *Source of Report: BreastCare Online System.*
11. Hyperplasia diagnosis: Unduplicated count of women with a final diagnosis of hyperplasia reported to the BreastCare program during a specific time period. The diagnosis may be prior to the quarter it is reported in; *Source of Report: BreastCare Online System.*

12. Atypical hyperplasia diagnosis: Unduplicated count of women with a final diagnosis of atypical ductal hyperplasia reported to the BreastCare program during a specific time period. The diagnosis may be prior to the quarter it is reported in; *Source of Report: BreastCare Online System*

Breast Cancer Control Advisory Board

CONTRACT UPDATE

A. St. Francis Community Clinic NWA

- As of March 2020: 959 total eligible women
 - CBE: 206
 - Pap Test: 4
 - HPV: 8
 - Mammogram referrals: 96
 - Multiple services: 645 (women who received multiple services are only counted once)
 - Number of women navigated
 1. Screened: 26
 2. Diagnostics: 3
 3. Treatment: 2

B. Statewide Mobile Mammography Request for Applications (RFA)

- Received 1 application
- Awaiting more information from the applicant

C. St. Bernard's Mobile Mammography FYQ3 Report

- Began services February 1, 2020
- As of March 2020
 - Served 7 different counties
 - Participated in 22 events including 3 worksites and 19 after-hour events
 - Referrals: 317
 - Screened: 228
 - Diagnostics: 11
 - 3 enrolled into BreastCare (1 screened: 33% screening rate)
 - 1 breast cancer diagnosis

D. UAMS Mobile Mammography FY20 Q2 Report

- As of March 2020,
 - Served 6 different counties
 - Participated in 10 events including 3 worksites and 1 after-hour event
 - Referrals: 128
 - Screened: 117
 - Diagnostics: 3
 - 21 enrolled into BreastCare (14 screened: 67% screening rate)
 - 0 breast cancer diagnosis
