

HIPAA Compliance

6 WEEKS

24 Course hours

\$149.00

Are you a health care professional or considering a career in the health care industry, or do you provide services to a health care organization? If the answer to any of these questions is yes, then it is mandatory that you understand the compliance requirements of HIPAA, and subsequent rules and laws that affect HIPAA. These laws require all health care professionals to take careful steps to protect protected health information. In this course you will examine the compliance process. You will focus specifically on the Administrative Simplification portion of HIPAA. This course will give real world examples to explain the Privacy rule. You will examine what is meant by covered entities, business associates, and many other relationships within the health care industry impacted by HIPAA. You will understand how computers fit into the Security Rule and examine many types of safeguards, which are crucial components of the Security Rule. You will also learn about the Office for Civil Rights, HIPAA's watchdog organization.

By the time you finish this course, you will be confident and capable of implementing HIPAA's Administrative Simplification rules, and the laws impacting it, in your own organization. If you are just starting your career in the health care field, you will have a priceless addition to your resume.
