## **Notify WIC State Office if You Have Flooding Issues or Minimum Stock Issues**

In the event you have to close your store(s) due to flooding or you are not able to meet minimum stock, please notify Stacie Torrence by phone 501-661-2177 or email at [Stacie.Torrence@arkansas.gov](mailto:Stacie.Torrence@arkansas.gov). While we do not tell participants where to shop, we want to be able to tell our participants which stores are open when they call our local county health unit(s) and/or our office.

I realize some parts of the states may be impacted and some may not. However, this is being sent to all vendors due to the possibility of changes in the weather condition.
