Professional Boundaries in Nursing is designed for student nurses and nurses working in any practice setting who are committed to providing safe, competent, and ethical nursing care. Understand your responsibility for establishing and maintaining professional boundaries in the therapeutic nurse-patient relationship, as well as the consequences of boundary crossings, boundary violations and professional sexual misconduct.

Who Should Take This Course

This self-paced online CE course is designed for student nurses and nurses working in any practice setting who are committed to providing safe, competent, and ethical nursing care.

Course Authors

This course was developed by the National Council of State Boards of Nursing (NCSBN).
