HOME BIRTH FILING BEFORE ONE YEAR OF AGE

Rules and Regulations Pertaining to Vital Records 4.0 outlines evidence required to process an unattended home birth that is filed before the first birthday.

Processing and filing can only be done by the State Office of Vital Records.

Documents required for filing a home birth (there is no waiver) are as follows:

1. A State or Federal photo I.D. for the birth mother.
3. A signed, notarized Affidavit of Home Birth (VR-18) R 7/10

In addition, one of each of the following is also required:

a. Evidence of pregnancy which can be accomplished through a prenatal medical record from a physician, prenatal records from the Local Health Units, or records of home visit by a public health nurse or other health care provider. This would include a state-licensed Midwife. Professionally camera dated photos of the mother within two weeks of the birth would be acceptable (examples: professional photographer; photo next to event that clearly shows date such as current newspaper, ultrasound with date and name, etc.).

b. Evidence of mother’s presence in Arkansas on the dates before and after the birth. Examples include: Identification card (in addition to I.D. required above), which includes the mother’s current Arkansas residence on the face of the license/card, rent receipts, any type of utility, telephone, or other bills that include the mother’s name and address showing presence in the state. Within two weeks before the birth and after would be acceptable. Credit card or check purchases (both sides of copies of cancelled checks), signed by the mother at businesses in the state of Arkansas both prior and after the birth of the child.

**If the mother is not a resident of the state of Arkansas, evidence must be presented to the State Registrar that is clear and convincing to file the home birth.
