Student Health Report

Date Issued:
Student Name:
Current Grade:

The following health screenings have been provided to your student during the 2019-2020 school year. Health is important to academic achievement and your child’s success.

**Vision Screening Information**
- ☐ Normal – no action needed
- ☐ Possible problem – see child’s doctor
- ☐ Not Screened
- ☐ Your child failed the vision screening exam for color blindness.

**Hearing Screening Information**
- ☐ Normal – no action needed
- ☐ Possible problem – see child’s doctor
- ☐ Not Screened

**Scoliosis Screening Information**
- ☐ Normal – no action needed
- ☐ Possible problem – see child’s doctor
- ☐ Not Screened

**Growth Screening Information**
- ☐ Not Screened
  
  Height: Inches
  Weight: Pounds
  Body Mass Index Percentile (BMI %):

  Body Mass Index, or BMI, is a way to tell if a person may have an unhealthy amount of fat in their body. A normal BMI percentile is 5 to 85. If your child’s BMI percentile is more than 85, please take your child to a doctor to find out if there is a problem and, if so, what to do about it.
