Public Comment

There may be confusion about some topics being approved for continuing education. Under rules and regulations CE must fall within the scope of practice; many topics are not. CE topics may be in conflict with current scope of practice.
Need to readdress the rules and regulations in this regard. Refer to Article 6, 4b and Article 2 of rules and regulations.
This will be researched and referred to the ad hoc committee.

Meeting concluded at 3:00 p.m.
