AEMT LICENSURE

Licensure Standards

Arkansas AEMT renewal is required every two (2) years in order to ensure EMSPs maintain the ability, skills and knowledge needed to properly perform pre-hospital medical patient care. It is based on a combination of training programs and testing of basic critical skills.

The Section of Emergency Medical Services considers renewal to be an **individual responsibility.**

Do not rely on employers or others to complete your licensure!

Individuals will not be authorized to provide care as EMSPs from their expiration date until they complete the renewal process.

EMS-Instructor Renewal requirements must be completed to maintain Instructor status but does not affect Arkansas EMSP licensure. An individual can choose to not renew their Instructor status and still maintain their EMSP

level.
