SECTION 1 – PROGRAM OVERVIEW

- **Do not provide responses to items in this section unless specifically and expressly required.**

1.1 PURPOSE

The Arkansas Department of Health (ADH) issues this Request for Application (RFA) to obtain applications for funding to provide technical assistance supporting financial and operational work with Arkansas' Critical Access Hospitals (CAHs).

1.2 BACKGROUND

The Medicare Rural Hospital Flexibility Program, or Flex Program, was established by the Balanced Budget Act (BBA) of 1997. Any state with rural hospitals and a state rural health plan may establish a Flex Program and apply for federal funding. The Flex Program also created critical access hospitals (CAHs) as a Medicare provider type. CAH designation allows the hospital to be reimbursed on a reasonable cost basis for inpatient and outpatient services including lab and qualifying ambulance services that are provided to Medicare patients and, in some states, Medicaid patients. The Flex Program grant provides funding to state governments or other designated entities to support CAHs in: financial & operational improvement, quality improvement, quality reporting, performance improvements, and benchmarking, designating facilities as CAHs, population health, and the provision of rural emergency medical services (EMS). Only states with CAHs or hospitals eligible to convert to CAH status and a state rural health plan are eligible to participate in the Flex Program.

The CAH designation is designed to reduce the financial vulnerability of rural hospitals and improve access to healthcare by keeping essential services in rural communities. To accomplish this goal, CAHs receive certain benefits, such as cost-based reimbursement for Medicare services.
